

The Leibniz Association

February 2018

Prof. Dr. Dr. h.c. Volker Mosbrugger

Leibniz Mission Statement

We stand for
scientific excellence and societal impact

We

- conduct excellent knowledge oriented research with social, ecological and economic impact
- practice cooperative research within and across institutes
- closely collaborate with universities
- provide a wide range of research infrastructures

The Leibniz Association at a glance

- Founded in 1995
- 93 institutes:
 - 69 research institutes
 - 17 research infrastructure facilities
 - 8 research museums
- 18,700 employees; 9,500 researchers
- Total annual budget of > € 1.8 billion
- Exemplary system of regular evaluation

Locations and Research Areas

Section A (21)

Humanities and Educational Research

Section B (16)

Economics, Social and Spatial Sciences

Section C (23)

Life Sciences

Section D (22)

Mathematics, Natural Sciences and Engineering

Section E (9)

Environmental Research

Strategic networks

Collaborative research

Leibniz ScienceCampi

- Leibniz tool for regional partnerships between Leibniz Institutes and universities focusing on certain topics

Leibniz Research Alliances

- Leibniz tool for topic-specific partnerships between Leibniz Institutes as well as between Leibniz Institutes and external partners

Funding line Strategic Networks

- 5 mio. € p.a.
- Competitive procedure, international assessment

Leibniz ScienceCampi

- Regional research clusters between Leibniz Institutes, universities and other partners
- International competence centres of innovative research
- Research of high societal relevance
- Perspective: permanent integration in the long-term research programmes of Leibniz Institutes
- Long-term effects: graduate programmes and research centres
- Currently, there are 19 Leibniz ScienceCampi

Leibniz ScienceCampi

Cooperations in Iran

- Many Leibniz Institutes (24/93) already have strong connections to individual researchers and research institutions in Iran.
- Cooperation spans over all sections of the Leibniz Association and comprises
 - Memoranda of Understanding (e.g. DPZ and IUST)
 - Long-standing international Projects in Iran (e.g. Archaeology)
 - Projects with Iranian Partners (e.g. DSMZ)
 - Summer Schools (e.g. BNITM)
 - Research Stays and staff exchange (e.g. TROPOS)

Leibniz-DAAD Matchmaking Workshop - with Iranian Researchers

- held in October 2017 in Berlin
- 60 Participants from Iran and Germany
- Topics: Biodiversity, Sustainable Land- and -Water Use, Health

Thank you for your attention!
